OCCUPATIONAL HEALTH AND SAFETY POLICY

At the RTC Group our Occupational Health, Safety and Rehabilitation Policies are based on a belief that the well-being of our people employed at work, or people affected by our work, are a major priority and must be considered during all work performed by the RTC Group of companies.

The employees as well as the overall public are the most important asset of the RTC Group and their health and safety is the company's greatest priority and responsibility.

The objectives of RTC Group Safety Policy are as follows:

- ❖ To achieve an injury free workplace
- ❖ To make health & safety an integral part of every managerial and supervisory position
- ❖ To ensure health and safety is taken into consideration in all planning of works and work activities
- ❖ To provide all employees with updated information and training in changes to general safety and work practices including statutory and legislative changes
- ❖ To identify and control all potential hazards in the work place through hazard identification and risk analysis
- ❖ To ensure all potential injuries and incidents are controlled and prevented
- ❖ To provide effective injury management and rehabilitation for all employees

The success of the RTC Group Occupational Health and Safety Management Plan is dependent on:

- ❖ Planning in advance all work activities and considering how Occupational Health and Safety will be implemented to each given situation
- ❖ Ensuring our work teams understand our work processes and the associated Occupational Health and Safety risks
- ❖ Ensuring our employees work as a team and are committed to achieving our objectives
- ❖ Ensuring that all employees are able to communicate freely and honestly with managerial staff

I Richard Claut, Managing Director of the RTC Group of Companies hereby acknowledge our responsibilities under our current OH & S Plan and will ensure all appropriate measures are taken to protect the well being of all RTC employees at all times.

Regards

Richard Claut
